I consider myself to be a confident, hardworking and reliable individual, which are attributes that are essential to have in any workplace. I am someone who is able to handle responsibility and can work as an individual as well as being part of a team. I have a "can do" attitude towards solving problems which requires me to be a good listener and approachable to customers and other employees at all times. Learning new skills encourages me to carry on developing my existing skills. I am always willing to demonstrate my commitment to my professional development. I am a devoted IT hobbist and Android developer I have created many apps including games, utilities as well as commercial apps.

Personal Details

Driver's License: AM, B, BE, Cars

Eligible to work in the UK: Yes

Highest Level of Education: GCSE or equivalent

Work Experience

Business and domestic software development, CEO

Inside4ndroid Studios Ltd - Wakefield

November 2021 to Present

After being a sole trader since 2019 I have upgraded the company I started from RAW Development to Inside4ndroid Studios Ltd. Main main role is to develop all types of software and cloud services, website and even mobile applications.

Self employed Joiner

Self employed - Dewsbury

January 2017 to Present

Responsibilities

I undertake all responsibilities in the working environment for myself and others. Health and Safety is a massive part of my job due to the hazards and tools/machinery involved.

Software Developer

RAW Development - Dewsbury

September 2019 to November 2021

I started my own business working as a self employed android and website developer. This requires certain skills in understanding the target platform frameworks and being able to build android applications and websites to a deadline. I also have current knowledge of the GDPR and privacy policies for several countries.

Metal Merchant

Trinity Metals - Ossett

April 2018 to September 2019

My job role is a physically demanding role. I am responsible for recognising and sorting metals of every kind. I deal with customers on a face to face basis daily. Health and safety is a constant part of my job. I work as part of a team as well as an individual.

Production Operative/Machine Operator

Rixonway Kitchens / EasyRecruit UK Agency - Dewsbury

September 2016 to January 2017

I work on a production line within the factory to produce high quality kitchen units. The role involves the need to be alert, aware of others and the environment. Health and safety is a big part of the job as well as being able to make decisions using my own initiative, for and as part of the team. I have become competent in different parts of the production process due to training provided as well as previous experience

Self Employed Joiner

Sheen Projects - Dewsbury

November 2015 to September 2016

Responsibilities

I undertake all responsibilities in the working environment for myself and others. Health and Safety is a massive part of my job due to the hazards and tools/machinery involved.

Bench Joiner / Framer

Frame Tech Structures - Dewbury

November 2014 to November 2015

At Frame Tech I am a bench joiner/framer my main role is to build wooden frames from technical drawings and verbal instructions to the millimeter. I have been trained to work with all the factory machinery including cross cut saws, cnc, industrial nail guns amongst other minor machinery. Health and safety is a massive part of my job due to all the risks and dangers involved. Reliability, team work and communication are essential skills to be able to produce high quality frames at speed.

Machine operator and Production Operative

Adecco (Mars Petcare) - Birstall

May 2014 to November 2014

At Mars Petcare I am a machine operator and production operative, I have been trained to work on Flow Rap production lines and also to work with the PFM Computers which control the production machinery. Reliability and team work are essential to producing high quality petcare and treats, I am now also beginning to train others on how to use within the factory.

Production Specialist

Krispy Kreme - Birstall

September 2013 to May 2014

My job roles involved working to a demanding timeline while being on top of all health and safety in the workplace especially around food. I was required to operate machinery to produce doughnuts of the highest possible quality. I also gained an on site fork lift license.

Reed Handballing - January 2010-november 2011

I worked as a unloader/loader which mostly consisted of unloading and loading 20ft/40ft containers on the several distribution sites, I had to work to strict deadlines and had to be physically fit. Team work was essential to meeting targets, Health and Safety was also one of the most important aspects of this job.

Hanballer/Devanner

Richard Bryant Handballing - Felixstowe

2007 to September 2010

I worked as a unloader/loader which mostly consisted of unloading and loading 20ft/40ft containers on the port of felixstowe, I had to work to strict deadlines and had to be physically fit. Team work was essential to meeting targets, Health and Safety was also one of the most important aspects of this job

IT Technician
